

Lake Mills Chamber Development Corporation

203 North First Avenue West

P.O. Box 182

Lake Mills, Iowa 50450

Marilyn Hoffman, Executive Director

*"Promise of
America"*

July 28, 2010

TO: I-Jobs Board

RE: Storm Sirens

The City of Lake Mills is making an I-Jobs application to assist in purchasing and installing linings for the Sanitary Sewer. The purpose is to reduce the inflow and infiltration into the sanitary sewers in the City.

The linings will help prevent sewer back-ups into basements during heavy or prolonged rain events. In some areas of the community this has been a common occurrence and is an obvious health concern for everyone. The new liners would also help reduce the treating of water at the wastewater treatment plant.

As the director of the Lake Mills Chamber Development Corporation, I fully support this application.

Thank you in advance for considering this I-Jobs application.

Sincerely,

Marilyn Hoffman
LMCDC Executive Director
